AI COLLECTIVE / CLOSE ENCOUNTERS

CAN AI SOLVE THE UFO MYSTERY?

What happens when artificial intelligence meets the unknown?

AI-generated concept art

What exactly are we seeing?

Watch first. Interpret second.

What can you observe? What can’t you know from the video alone?

Closer to home.

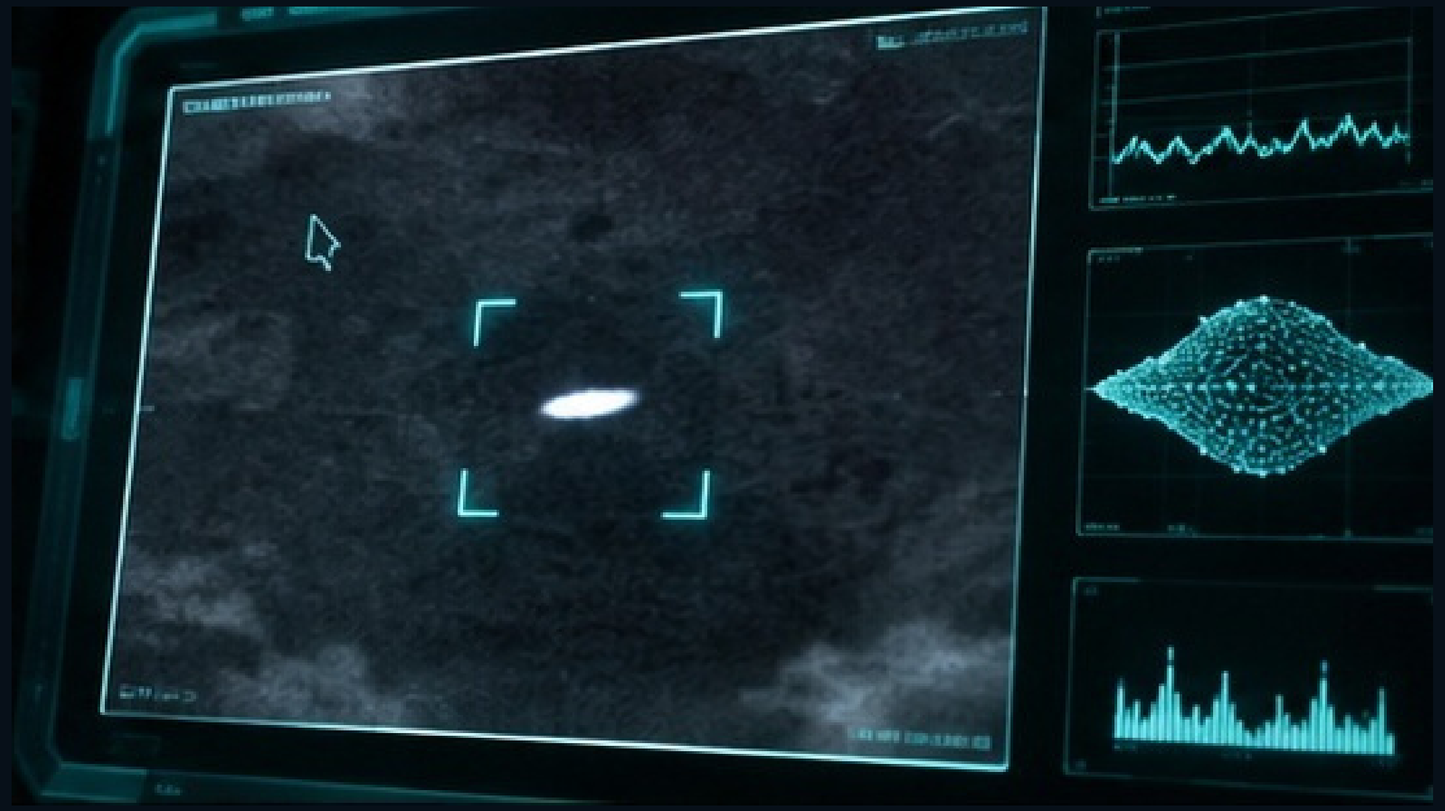
VIRGINIA BEACH / ATLANTIC

Former Navy pilot Ryan Graves reported unusual encounters during training near Virginia Beach in 2014.

2023 congressional testimony — a reported experience, not proof of alien origin.

WATCH THE HEARING ›

AI as a UAP investigator



DETECT

Track objects across frames.

COMPARE

Correlate video, radar and context.

FLAG

Find unusual patterns for human review.

NASA UAP RESEARCH ›

AI can help prioritize evidence. It cannot invent missing data.

Real or AI-generated?

Which image would you trust enough to submit as evidence?

A

B

C

Vote first. Then tell us what you would need to verify your choice.

All three were AI-generated.

A convincing image is not the same thing as verified evidence.

A / AI

B / AI

C / AI

THE REALITY CHECK

Original source
Time and location
Independent sensor data

GOFAST

Authentic video. Misleading impression of speed.

AARO concluded in 2025 that the object showed no anomalous performance; its identity was not definitively established.
